REMARKS

Claim 2 is amended to avoid a possible misunderstanding of that claim as requiring a rigid interconnection between the dual external piston and the dual internal piston. The amended claim makes clear that the rigid interconnection between the two double-acting single pistons of the dual internal piston, as well as the rigid interconnection between the two double-acting single pistons of the dual external piston, extend through the central partition. The present amendments to Claim 2 are submitted only for clarification and are not meant to enlarge or diminish the scope of any claim.

The Applicant respectfully requests the Examiner to enter the present amendment.

Respectfully submitted,

MERCHANT & GOULD
